

Venue Inquiries

Artistry of Mediumship™ is comprised of highly sought after, publicly known, compassionate psychic mediums and healers. During events, these readers will come together to showcase their talents of connecting with the Spirit World.

We will be touring annually along the West Coast and southeastern region of the United States. With a focus on the “art” of mediumship, our engagements will be limited to art studios and galleries.

Our aim is for quality over quantity, so our talent will strategically connect with locations we feel best to partner with during this unique and intriguing experience. We, like many artists, are passionate about our craft. We are true professionals who understand the art of being a light for many after the pandemic caused such profound loss in our nation. Folks are compelled to see this work in-person; out of curiosity and intrigue, and for the chance to see their favorite mediums face-to-face. The possibility of hearing from their loved ones in spirit will draw the community to your studio’s doors.

This tour is a partnership with options that can be of no cost to the venue. We know how to help both larger and smaller establishments flourish at marketing within their community to create a buzz. We will be limiting the tour to only a few key venues in each given area. If you would like to learn more on how to be considered for this partnership opportunity, please reach out using the contacts page and we will happily set up a face-to-face virtual chat.

Sincerely,

The Artistry of Mediumship Team
